

SecureRide

Anti-Theft System for Your Car

Car Thefts on the Rise Across the U.S.

Car thefts are accelerating at an alarming rate, jumping from 318,000 in 2019 to nearly 470,000 in 2022. That's a 47% spike in just four years, driven by security gaps in popular makes like Kia and Hyundai. Traditional locks and alarms are no longer enough. SecureRide Technologies is redefining vehicle protection with cutting-edge anti-theft software that connects directly to your car. With the SecureRide App, you can lock or unlock your vehicle remotely, track real-time alerts, and stay one step ahead of potential threats.

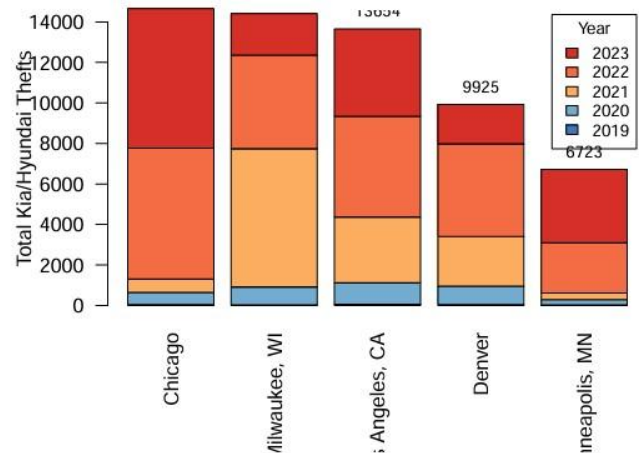

Kia/Hyundai Car Thefts (2019–2022) by Region

Live in One of These Cities? Your Car Could Be Next.

If you live in one of these 5 cities, your vehicle is at the highest risk of theft in the country. Kia and Hyundai models in these cities have seen thefts soar year after year, with 2022 marking the highest jump yet. Thieves are targeting vehicles that lack security software, often stealing them in minutes using easily available online methods.

Kia and Hyundai Thefts Surge Across the Midwest

Milwaukee has become one of the biggest hotspots for Kia and Hyundai thefts. Starting in 2021, thefts of these cars skyrocketed after it was discovered that many models lacked engine immobilizers, a basic anti-theft feature that prevents cars from starting without the proper key. This flaw made it easy for thieves to steal these vehicles using nothing more than a USB cable, sparking viral social media challenges and a massive wave of copycat crimes. For drivers, prevention starts with smarter technology like SecureRide.
